Account History & Compliance Notes

Reference: EU-A-A1-000048 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

Internal telemetry data reviewed under the technical audit clause showed that the software was being accessed from departmental units not originally specified in the license schedule. While the total user count remained within contractual limits, the undisclosed departmental deployment was documented in the compliance memorandum dated 2023-04-05 but not formally escalated given the overall low-risk profile of the account.

Expiry of this license followed a deliberate and communicated decision by SmartGroup to consolidate their technology stack as part of an enterprise-wide cost reduction programme. A formal notice of non-renewal was received in writing from their executive team on 2023-04-05. The account was closed in good standing with all outstanding financial obligations settled prior to the expiry date.

From a technical standpoint, the deployment has been stable with no major service incidents reported to the support function. The client completed the mandatory security configuration review within the required timeframe and holds a current penetration test certificate on file. Integration with their existing identity management infrastructure was completed without material issues.

Invoice disputes have been minimal throughout the relationship. A single billing discrepancy was raised relating to pro-rated charges following a mid-cycle seat adjustment request. The matter was resolved promptly following clarification from the finance team, and no further disputes have been recorded.
