LICENSE DOCUMENT EU

EU-A-A2-000054 — DataHub

License ID	EU-A-A2-000054
License Key	ZX6C-7EWP-642I-WPVY
Repository	EU-Repo-A
Sub-Repository	A2
License Type	GDPR Compliant - Data Processing
License Category	A
Status	Revoked
Company Name	DataHub
VAT Number	HU253482457

— Continued (Section 2) —

Contact Name	Kimberly White
Contact Email	kimberly.white@datahub.co
Contact Phone	+32-855-290-5036
Street Address	72 Calle Hauptmann
City	Budapest
Country	Hungary
Postal Code	51852
Region	Central Europe
Issue Date	2024-09-29

— Continued (Section 3) —

Expiration Date	2026-05-09
Last Renewed	2025-09-03
Next Review Date	2026-05-29
GDPR Compliance Status	Under Assessment
Data Protection Officer	*Joshua Thomas*
DPO Email	dpo.thomas@datahub.com
Compliance Level	Level 3 - Enhanced
Risk Rating	Medium
Tier	Enterprise

— Continued (Section 4) —

Seats Licensed	5
Seats Used	1
Annual Fee	131547.85
Currency	HUF
Payment Method	Credit Card
Payment Status	Paid
Invoice Number	INV-EU-849723
Software Version	8.16.810
IP Address Bound	181.71.107.108

— Continued (Section 5) —

MAC Address Bound	B3:E3:35:91:DD:AC
Department	HR
Approved By	Christopher Clark
Approval Date	2024-09-29
SLA Level	Silver
Uptime Guarantee (%)	99.5
Support Hours	8x5
Support Language	Italian
Data Residency	EU Only

— Continued (Section 6) —

Cross-Border Transfer	Pending Assessment
Encryption Standard	AES-256
Audit Frequency	Semi-Annual
Last Audit Date	2024-04-13
Audit Result	Fail - Major
Renewal Frequency	Annual
Auto-Renew	Yes
Cancellation Notice (Days)	30
CE Marking	N/A

Environmental Compliance	ISO 14001
Notes	Annual penetration test scheduled
Internal Reference	REF-43541
Hash Signature	4ee98bdd61fbee7fc75e4e4a00fe6523

Account History & Compliance Notes

Reference: EU-A-A2-000054 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The DataHub entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Utilisation patterns reviewed during the Q3 2024 audit revealed that actual seat consumption peaked at 1 concurrent users, significantly below the 5 seats contracted. The compliance team flagged this underutilisation in their quarterly review report and recommended initiating a commercial renegotiation to right-size the license, though the account manager advised against it given the client's stated expansion plans for the following fiscal year.

The most significant compliance incident on record occurred in 2024-07-08 when a scheduled audit revealed that the licensee had failed to implement mandatory encryption at rest for data categories classified as sensitive under the applicable regulatory framework. The DPO, Joshua Thomas, was formally notified and the remediation plan submitted was deemed inadequate by the review panel, resulting in the issuance of a cure notice. The cure period elapsed without satisfactory remediation, which directly contributed to the current account status.

From a technical standpoint, the deployment has been stable with no major service incidents reported to the support function. The client completed the mandatory security configuration review within the required timeframe and holds a current penetration test certificate on file. Integration with their existing identity management infrastructure was completed without material issues.

The compliance committee has recommended that the next renewal cycle incorporate a requirement for the client to designate a dedicated internal compliance liaison with defined responsibilities for this account. This expectation has been communicated informally to the client's legal team and received a positive initial response.
