Account History & Compliance Notes

Reference: EU-A-A3-000103 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

Usage logs obtained during the Q4 2023 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by VertexPartners, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

From a commercial perspective, the account has historically maintained a good payment record, with the exception of a brief late-payment episode in 2022 that was attributed to a treasury system transition at VertexPartners. A late payment charge was waived as a goodwill gesture given the client's otherwise clean financial history with the organisation.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.
