Account History & Compliance Notes

Reference: EU-A-A5-000243 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The InfoConsulting entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Usage logs obtained during the annual 2023 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by InfoConsulting, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

This is one of the longer-standing active accounts in the portfolio, having maintained continuous compliance status since initial onboarding. The InfoConsulting team has proactively engaged with compliance training resources provided and has on two occasions served as a positive reference for the onboarding of new licensees within their industry sector.

The conditional outcome arose from the client's inability to confirm the precise legal basis for processing in two specific use cases identified during the audit. Legal counsel for both parties are engaged in a clarification process, and the account has been placed under enhanced monitoring pending resolution.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2023. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.
