Account History & Compliance Notes

Reference: EU-A-A4-000160 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was migrated from a legacy reseller arrangement in 2022 when the original distribution partner ceased operations. The transition was managed by the regional partner success team and involved re-signing the master license agreement with updated data processing terms. Several weeks of parallel access were provided to allow the client to verify continuity of service before the legacy arrangement was formally terminated.

Usage logs obtained during the Q1 2024 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by DigiHub, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

From a commercial perspective, the account has historically maintained a good payment record, with the exception of a brief late-payment episode in 2022 that was attributed to a treasury system transition at DigiHub. A late payment charge was waived as a goodwill gesture given the client's otherwise clean financial history with the organisation.

The current suspension was imposed as a precautionary measure pending the outcome of an internal investigation at DigiHub following an incident involving a key user with elevated system privileges. The suspension was agreed mutually with the client's legal team as a risk containment measure and is expected to be lifted subject to satisfactory resolution and formal sign-off from the compliance committee.
