Payment Status	Pending	Invoice Number	INV-EU-793267	Software Version	5.38.60
IP Address Bound	167.103.82.247				

MAC Address Bound	B5:23:91:BA:0E:44	Department	Engineering	Approved By	Mark Thomas
Approval Date	2025-07-04				

SLA Level	Bronze	Uptime Guarantee (%)	99.0	Support Hours	16x7
Support Language	German				

Data Residency	Global with EU Primary	Cross-Border Transfer	Pending Assessment	Encryption Standard	ChaCha20
Audit Frequency	Quarterly				

Last Audit Date	2024-06-14	**Audit Result**	Fail - Major	***Renewal Frequency***	*Monthly*
Auto-Renew	No				

Cancellation Notice (Days)	90	CE Marking	N/A	Environmental Compliance	ISO 14001
Notes	Multi-tenant isolation verified				

Internal Reference REF-88703 Hash Signature 1ce1b2bd7187e5e74979 3a0c8e7a3c1d

Annual Fee	130700.67	Last Audit Date	2024-06-14	Risk Rating	Low
Expiration Date	2028-10-12	Contact Phone	+33-682-324-9872	Renewal Frequency	Monthly
Payment Method	Wire Transfer	VAT Number	EL664285315	Internal Reference	REF-88703

Account History & Compliance Notes

Reference: EU-A-A5-000227 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

The engineering team has been the primary user base since initial deployment, with occasional cross-departmental access granted on an ad-hoc basis by the client's internal IT administrator. The compliance team has repeatedly noted the absence of a formal internal user provisioning process at the client side, which creates tracking difficulties and was cited as a control weakness in the last two consecutive audit cycles.

A major audit failure was recorded following the discovery that CyberGroup had been processing data in a jurisdiction not covered by the approved data residency declaration. The transfer was traced to a misconfigured cloud storage configuration that had been routing backup snapshots outside the agreed perimeter since 2022-04-02. The incident was self-reported by the client's IT security team, which was noted as a mitigating factor, though the materiality of the breach required escalation to senior compliance leadership.

Expiry of this license followed a deliberate and communicated decision by CyberGroup to consolidate their technology stack as part of an enterprise-wide cost reduction programme. A formal notice of non-renewal was received in writing from their executive team on 2022-04-02. The account was closed in good standing with all outstanding financial obligations settled prior to the expiry date.

The compliance committee has recommended that the next renewal cycle incorporate a requirement for the client to designate a dedicated internal compliance liaison with defined responsibilities for this account. This expectation has been communicated informally to the client's legal team and received a positive initial response.
