## Account History & Compliance Notes

Reference: EU-B-B1-000337 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

This client relationship originated from an inbound request submitted via the partner portal in 2022. The legal onboarding process took approximately eleven weeks due to prolonged negotiations over data processing addenda, particularly around sub-processor disclosure obligations and the scope of the audit rights clause. Several rounds of redlines were exchanged before a mutually acceptable version of the data processing agreement was finalised.

Review of the access logs indicated consistent usage during standard business hours in the declared jurisdiction, with no anomalous off-hours activity detected. The IP binding configuration was verified as correctly matching the declared address ranges, and no sessions originating from unexpected geographic locations were identified during the monitoring window.

The conditional pass status reflects ongoing uncertainty regarding the legal basis for certain cross-border data flows. Following recent regulatory developments, the existing transfer mechanism may require supplementary safeguards that the client has not yet formally documented. The account is flagged for priority follow-up in the next quarterly review cycle.

This is one of the longer-standing active accounts in the portfolio, having maintained continuous compliance status since initial onboarding. The ApexCorp team has proactively engaged with compliance training resources provided and has on two occasions served as a positive reference for the onboarding of new licensees within their industry sector.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.
