Account History & Compliance Notes

Reference: US-A-A1-000014 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

Internal telemetry data reviewed under the technical audit clause showed that the software was being accessed from departmental units not originally specified in the license schedule. While the total user count remained within contractual limits, the undisclosed departmental deployment was documented in the compliance memorandum dated 2019-03-28 but not formally escalated given the overall low-risk profile of the account.

The pricing structure for this account reflects a negotiated discount agreed in exchange for a multi-year commitment and the client's participation as a reference customer. The commercial terms are subject to a utilisation-linked review mechanism that was included at the client's request during the original negotiation.

The renewal process was initiated within the contractual notice window, but negotiations have been extended due to AlphaHub's request for modified terms including expanded data residency provisions and a reduction in the minimum seat commitment threshold. Commercial discussions are ongoing, and the account has been extended on a month-to-month basis at the existing contractual rate pending execution of the renewal agreement.
