MAC Address Bound	02:9E:6B:D1:51:B6				

Department	Compliance	Approved By	Andrew Robinson	Approval Date	2025-10-26
SLA Level	Bronze				

Uptime Guarantee (%)	99.95	Support Hours	24x7	Data Classification	Top Secret
Encryption Required	AES-256				

Audit Frequency	Quarterly	Renewal Frequency	Biennial	Auto-Renew	Yes
Cancellation Notice (Days)	180				

Notes	Partner referral	Internal Reference	REF-12149	Hash Signature	8ede0cffc4df131a93c3e434160bd319

Account History & Compliance Notes

Reference: US-B-B4-000552 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The DigiEnterprise entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Utilisation patterns reviewed during the Q2 2025 audit revealed that actual seat consumption peaked at 229 concurrent users, significantly below the 250 seats contracted. The compliance team flagged this underutilisation in their quarterly review report and recommended initiating a commercial renegotiation to right-size the license, though the account manager advised against it given the client's stated expansion plans for the following fiscal year.

Integration complexity at this account is above average, reflecting the client's bespoke data architecture and the custom connector configurations agreed as part of the original deployment engagement. These configurations have been fully documented and are maintained by the assigned technical account specialist.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2021. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.

The current suspension was imposed as a precautionary measure pending the outcome of an internal investigation at DigiEnterprise following an incident involving a key user with elevated system privileges. The suspension was agreed mutually with the client's legal team as a risk containment measure and is expected to be lifted subject to satisfactory resolution and formal sign-off from the compliance committee.
