Account History & Compliance Notes

Reference: US-B-B6-000659 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was migrated from a legacy reseller arrangement in 2022 when the original distribution partner ceased operations. The transition was managed by the regional partner success team and involved re-signing the master license agreement with updated data processing terms. Several weeks of parallel access were provided to allow the client to verify continuity of service before the legacy arrangement was formally terminated.

Review of the access logs indicated consistent usage during standard business hours in the declared jurisdiction, with no anomalous off-hours activity detected. The IP binding configuration was verified as correctly matching the declared address ranges, and no sessions originating from unexpected geographic locations were identified during the monitoring window.

Invoice disputes have been minimal throughout the relationship. A single billing discrepancy was raised relating to pro-rated charges following a mid-cycle seat adjustment request. The matter was resolved promptly following clarification from the finance team, and no further disputes have been recorded.

The license was formally revoked following the client's failure to cure material breaches identified across successive audit cycles. The decision was made by the Regional Compliance Committee after a final review meeting in which CoreServices's legal representative was given the opportunity to present mitigating circumstances. The committee determined that the accumulated non-conformances, combined with the absence of a credible remediation roadmap, warranted revocation rather than a further suspension period.

Given the pattern of recurring minor non-conformances, the account has been designated for an enhanced compliance engagement programme for the next review period. This will involve increased audit frequency and mandatory participation in compliance briefings provided to the client's relevant staff.
