Notes	Partner referral	Internal Reference	REF-43880	Hash Signature	5421f0eecb97776987261bfbd0e54bae

Account History & Compliance Notes

Reference: US-C-C1-000747 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was migrated from a legacy reseller arrangement in 2023 when the original distribution partner ceased operations. The transition was managed by the regional partner success team and involved re-signing the master license agreement with updated data processing terms. Several weeks of parallel access were provided to allow the client to verify continuity of service before the legacy arrangement was formally terminated.

Usage logs obtained during the Q4 2023 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by SmartIndustries, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

From a technical standpoint, the deployment has been stable with no major service incidents reported to the support function. The client completed the mandatory security configuration review within the required timeframe and holds a current penetration test certificate on file. Integration with their existing identity management infrastructure was completed without material issues.

The account was placed under formal review following information received through internal compliance channels raising concerns about potential use of the licensed data outside the agreed scope. The allegations are being investigated by the compliance integrity team, and access has been restricted to read-only mode pending the outcome. SmartIndustries has cooperated fully with all document and information requests to date.

The compliance committee has recommended that the next renewal cycle incorporate a requirement for the client to designate a dedicated internal compliance liaison with defined responsibilities for this account. This expectation has been communicated informally to the client's legal team and received a positive initial response.
