Encryption Required	AES-256
Audit Frequency	Quarterly
Renewal Frequency	Quarterly

— Continued (Section 8) —

Auto-Renew	Yes
Cancellation Notice (Days)	90
Notes	Legacy system migration
Internal Reference	REF-60364
Hash Signature	30ed66e9d50e4b1ec813e68dd7eddba9

Account History & Compliance Notes

Reference: US-B-B1-000386 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The AlphaConsulting entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

The r&d team has been the primary user base since initial deployment, with occasional cross-departmental access granted on an ad-hoc basis by the client's internal IT administrator. The compliance team has repeatedly noted the absence of a formal internal user provisioning process at the client side, which creates tracking difficulties and was cited as a control weakness in the last two consecutive audit cycles.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2020. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.
