## Account History & Compliance Notes

Reference: US-C-C5-000935 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

Usage logs obtained during the H1 2024 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by DataAnalytics, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

The compliance team recommends maintaining the current monitoring frequency for this account and scheduling a structured review meeting with the client's compliance function to address the outstanding items. A detailed remediation tracking log should be maintained by the assigned compliance officer until all open points are formally closed.

The pricing structure for this account reflects a negotiated discount agreed in exchange for a multi-year commitment and the client's participation as a reference customer. The commercial terms are subject to a utilisation-linked review mechanism that was included at the client's request during the original negotiation.
