Audit Frequency	On-Demand
Renewal Frequency	Semi-Annual
Auto-Renew	Yes
Cancellation Notice (Days)	30
Notes	Multi-region deployment
Internal Reference	REF-66272
Hash Signature	0d9dd7423413898bdd190af2f1aab835

Account History & Compliance Notes

Reference: US-B-B3-000491 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was originally onboarded through a referral from an existing enterprise client, following a competitive procurement process in which three other vendors were evaluated. The initial engagement was preceded by a four-month pilot programme limited to the sales team, during which the licensee demonstrated satisfactory technical integration capabilities and a genuine commitment to compliance onboarding requirements.

Internal telemetry data reviewed under the technical audit clause showed that the software was being accessed from departmental units not originally specified in the license schedule. While the total user count remained within contractual limits, the undisclosed departmental deployment was documented in the compliance memorandum dated 2025-01-15 but not formally escalated given the overall low-risk profile of the account.

Invoice disputes have been minimal throughout the relationship. A single billing discrepancy was raised relating to pro-rated charges following a mid-cycle seat adjustment request. The matter was resolved promptly following clarification from the finance team, and no further disputes have been recorded.

The current suspension was imposed as a precautionary measure pending the outcome of an internal investigation at LogicSystems following an incident involving a key user with elevated system privileges. The suspension was agreed mutually with the client's legal team as a risk containment measure and is expected to be lifted subject to satisfactory resolution and formal sign-off from the compliance committee.
