Account History & Compliance Notes

Reference: US-D-D4-001242 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was originally onboarded through a referral from an industry peer, following a competitive procurement process in which three other vendors were evaluated. The initial engagement was preceded by a four-month pilot programme limited to the executive team, during which the licensee demonstrated satisfactory technical integration capabilities and a genuine commitment to compliance onboarding requirements.

Usage logs obtained during the H1 2024 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by AlphaDynamics, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

The account is currently in good standing with no open compliance matters. The most recent annual review concluded with a fully satisfactory outcome, and the client has consistently demonstrated a cooperative and proactive posture during all audit engagements. The relationship is considered low-maintenance from a compliance oversight perspective.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2024. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.
