Account History & Compliance Notes

Reference: US-B-B4-000545 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The BetaDynamics entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Utilisation patterns reviewed during the Q4 2023 audit revealed that actual seat consumption peaked at 1 concurrent users, significantly below the 1 seats contracted. The compliance team flagged this underutilisation in their quarterly review report and recommended initiating a commercial renegotiation to right-size the license, though the account manager advised against it given the client's stated expansion plans for the following fiscal year.

Expiry of this license followed a deliberate and communicated decision by BetaDynamics to consolidate their technology stack as part of an enterprise-wide cost reduction programme. A formal notice of non-renewal was received in writing from their executive team on 2021-08-20. The account was closed in good standing with all outstanding financial obligations settled prior to the expiry date.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2022. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.
