Invoice Number	INV-US-935324
Software Version	6.88.259

— Continued (Section 6) —

IP Address Bound	152.96.26.190
MAC Address Bound	64:DF:1F:D8:A6:BF
Department	Sales
Approved By	Richard Martin
Approval Date	2023-10-05
SLA Level	Diamond

— Continued (Section 7) —

Uptime Guarantee (%)	99.5
Support Hours	24x7x365
Data Classification	Internal
Encryption Required	Yes
Audit Frequency	Annual
Renewal Frequency	Annual

— Continued (Section 8) —

Auto-Renew	Yes
Cancellation Notice (Days)	180
Notes	Volume discount applied
Internal Reference	REF-28630
Hash Signature	7c1fdf92caa719fef57aa25f8de5eb41

Account History & Compliance Notes

Reference: US-D-D5-001317 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

Initial contact was made through the regional sales team following attendance at an industry conference. The prospect expressed specific interest in the analytics module, and the license scope was deliberately narrowed during negotiations to exclude certain data export functionalities that raised regulatory concerns in the client's jurisdiction. Legal sign-off from the client's privacy counsel was a condition precedent to execution.

The sales team has been the primary user base since initial deployment, with occasional cross-departmental access granted on an ad-hoc basis by the client's internal IT administrator. The compliance team has repeatedly noted the absence of a formal internal user provisioning process at the client side, which creates tracking difficulties and was cited as a control weakness in the last two consecutive audit cycles.

Based on the account history and current risk profile, the recommendation is to proceed with renewal subject to the inclusion of enhanced audit rights provisions and a requirement for quarterly self-attestation reporting. The commercial team has been briefed on these conditions.

The software deployment is operating on a version that is approaching end-of-support status. The client has been formally notified and has indicated an intention to plan the upgrade within the next scheduled maintenance window. This item is tracked in the account risk register and will be verified at the next scheduled technical check-in.

The current suspension was imposed as a precautionary measure pending the outcome of an internal investigation at VertexTechnologies following an incident involving a key user with elevated system privileges. The suspension was agreed mutually with the client's legal team as a risk containment measure and is expected to be lifted subject to satisfactory resolution and formal sign-off from the compliance committee.
