Account History & Compliance Notes

Reference: US-B-B4-000581 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

This client relationship originated from an inbound request submitted via the partner portal in 2021. The legal onboarding process took approximately eleven weeks due to prolonged negotiations over data processing addenda, particularly around sub-processor disclosure obligations and the scope of the audit rights clause. Several rounds of redlines were exchanged before a mutually acceptable version of the data processing agreement was finalised.

Usage logs obtained during the annual 2023 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by AlphaDynamics, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

From a commercial perspective, the account has historically maintained a good payment record, with the exception of a brief late-payment episode in 2021 that was attributed to a treasury system transition at AlphaDynamics. A late payment charge was waived as a goodwill gesture given the client's otherwise clean financial history with the organisation.

Technical support interactions have been moderate in volume, primarily relating to API rate configuration and user provisioning workflows. No severity-one incidents have been logged against this account during the current contract period. The client's technical team has been responsive to security advisories and has applied critical patches within the recommended remediation windows.
