Software Version	9.28.201
IP Address Bound	143.42.100.129
MAC Address Bound	A6:5A:53:6F:AC:0E

— Continued (Section 5) —

Department	HR
Approved By	Richard Moore
Approval Date	2020-05-25
SLA Level	Platinum
Uptime Guarantee (%)	99.5
Support Hours	24x7x365
Data Classification	Internal
Encryption Required	AES-256

— Continued (Section 6) —

Audit Frequency	Semi-Annual
Renewal Frequency	Biennial
Auto-Renew	No
Cancellation Notice (Days)	120
Notes	Priority support enabled
Internal Reference	REF-28946
Hash Signature	de904e4d2e56bb6f6562b119e2a681c4

Account History & Compliance Notes

Reference: US-C-C1-000709 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The DataLabs entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Usage logs obtained during the H1 2024 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by DataLabs, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

Technical support interactions have been moderate in volume, primarily relating to API rate configuration and user provisioning workflows. No severity-one incidents have been logged against this account during the current contract period. The client's technical team has been responsive to security advisories and has applied critical patches within the recommended remediation windows.

Expiry of this license followed a deliberate and communicated decision by DataLabs to consolidate their technology stack as part of an enterprise-wide cost reduction programme. A formal notice of non-renewal was received in writing from their executive team on 2024-10-11. The account was closed in good standing with all outstanding financial obligations settled prior to the expiry date.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.
