Department	Engineering
Approved By	Susan Jones
Approval Date	2023-05-09
SLA Level	Platinum
Uptime Guarantee (%)	99.0
Support Hours	8x5
Data Classification	Restricted
Encryption Required	TLS 1.3
Audit Frequency	On-Demand
Renewal Frequency	Annual
Auto-Renew	No
Cancellation Notice (Days)	90
Notes	Volume discount applied
Internal Reference	REF-77324
Hash Signature	d6b4dbbf546aab157841bf79c65028b6

Account History & Compliance Notes

Reference: US-C-C2-000780 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

This client relationship originated from an inbound request submitted via the partner portal in 2019. The legal onboarding process took approximately eleven weeks due to prolonged negotiations over data processing addenda, particularly around sub-processor disclosure obligations and the scope of the audit rights clause. Several rounds of redlines were exchanged before a mutually acceptable version of the data processing agreement was finalised.

Review of the access logs indicated consistent usage during standard business hours in the declared jurisdiction, with no anomalous off-hours activity detected. The IP binding configuration was verified as correctly matching the declared address ranges, and no sessions originating from unexpected geographic locations were identified during the monitoring window.

Integration complexity at this account is above average, reflecting the client's bespoke data architecture and the custom connector configurations agreed as part of the original deployment engagement. These configurations have been fully documented and are maintained by the assigned technical account specialist.

No material concerns are currently flagged for this account. Standard renewal processing is recommended. The account manager has been advised to use the upcoming renewal engagement as an opportunity to discuss the client's forward roadmap and assess scope for appropriate expansion of the licensed services.
