Department	Sales
Approved By	Dorothy Rodriguez
Approval Date	2024-12-26
SLA Level	Silver
Uptime Guarantee (%)	99.9
Support Hours	24x7x365
Data Classification	Internal
Encryption Required	TLS 1.3
Audit Frequency	Monthly
Renewal Frequency	Perpetual
Auto-Renew	No
Cancellation Notice (Days)	30
Notes	Government contract
Internal Reference	REF-41821
Hash Signature	459b9e969874a936d88be25f8d173b08

Account History & Compliance Notes

Reference: US-D-D2-001144 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The account was originally onboarded through a referral from a direct inbound inquiry, following a competitive procurement process in which three other vendors were evaluated. The initial engagement was preceded by a four-month pilot programme limited to the sales team, during which the licensee demonstrated satisfactory technical integration capabilities and a genuine commitment to compliance onboarding requirements.

The sales team has been the primary user base since initial deployment, with occasional cross-departmental access granted on an ad-hoc basis by the client's internal IT administrator. The compliance team has repeatedly noted the absence of a formal internal user provisioning process at the client side, which creates tracking difficulties and was cited as a control weakness in the last two consecutive audit cycles.

Expiry of this license followed a deliberate and communicated decision by SysDigital to consolidate their technology stack as part of an enterprise-wide cost reduction programme. A formal notice of non-renewal was received in writing from their executive team on 2019-05-12. The account was closed in good standing with all outstanding financial obligations settled prior to the expiry date.

From a technical standpoint, the deployment has been stable with no major service incidents reported to the support function. The client completed the mandatory security configuration review within the required timeframe and holds a current penetration test certificate on file. Integration with their existing identity management infrastructure was completed without material issues.
