Cancellation Notice (Days)	120
Notes	Priority support enabled

— Continued (Section 10) —

Internal Reference	REF-35801
Hash Signature	5109aa2c57610aa7e31dc3544b587694

Account History & Compliance Notes

Reference: US-D-D4-001253 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

This client relationship originated from an inbound request submitted via the partner portal in 2019. The legal onboarding process took approximately eleven weeks due to prolonged negotiations over data processing addenda, particularly around sub-processor disclosure obligations and the scope of the audit rights clause. Several rounds of redlines were exchanged before a mutually acceptable version of the data processing agreement was finalised.

Usage logs obtained during the Q3 2024 compliance review indicated that the integration layer was being accessed by a third-party contractor engaged by LogicSystems, which was not disclosed as a permitted sub-user in the original agreement. The client was notified via formal letter and subsequently provided written confirmation that the contractor access had been terminated and access credentials revoked.

The account is subject to an enterprise pricing agreement that was last formally benchmarked against market rates in 2019. Given the client's growth trajectory and changes in the competitive landscape, a commercial review has been flagged as a priority item for the next account management planning cycle.

The license reached its contractual expiry date without renewal, despite three formal renewal notices issued at 90, 60, and 30 days prior to expiry. Internal records indicate that the client's procurement team initiated a renewal process but encountered internal budget approval delays that could not be resolved within the required timeframe. Post-expiry access has been blocked per standard operational procedure.
