Account History & Compliance Notes

Reference: US-D-D6-001364 • Classification: RESTRICTED — COMPLIANCE TEAM ONLY • 2026-04-15

The licensing relationship was established as part of a broader enterprise agreement covering multiple subsidiaries. The LogicConsulting entity was carved out as a standalone license holder at the request of their group legal counsel, who sought to isolate liability at the operating entity level rather than the holding company. This structure required additional KYC documentation and a supplementary counterparty risk assessment.

Utilisation patterns reviewed during the Q4 2023 audit revealed that actual seat consumption peaked at 0 concurrent users, significantly below the 1 seats contracted. The compliance team flagged this underutilisation in their quarterly review report and recommended initiating a commercial renegotiation to right-size the license, though the account manager advised against it given the client's stated expansion plans for the following fiscal year.

The compliance team recommends maintaining the current monitoring frequency for this account and scheduling a structured review meeting with the client's compliance function to address the outstanding items. A detailed remediation tracking log should be maintained by the assigned compliance officer until all open points are formally closed.

From a commercial perspective, the account has historically maintained a good payment record, with the exception of a brief late-payment episode in 2021 that was attributed to a treasury system transition at LogicConsulting. A late payment charge was waived as a goodwill gesture given the client's otherwise clean financial history with the organisation.
